AI-native Web3 education

BLOCKCHAIN MADE SIMPLE.

AI-native Web3 education for schools and universities

BUILDING ITALY'S CATEGORY LEADER — SEED ROUND 2026

THE PROBLEM

Traditional teaching is
lecture-heavy and passive.
Students switch off.

90%
RETENTION LOSS
Lecture-first learning drives low retention and weak motivation.

1500+
TARGET INSTITUTIONS
Schools and universities want innovation that fits structured programs.

\$9.39B
TAM BY 2033
High demand for practical digital skills, but delivery remains outdated.

MASS BLOCKCHAIN ADOPTION STARTS WITH MASS EDUCATION.
MASS EDUCATION STARTS IN SCHOOLS.

WHY NOW

The window is open for exactly 12 months.

Policy Tailwind

Italian government mandates digital skills in curricula by end of 2026. Schools are actively buying now.

First-Mover Window

Competitors are 18+ months away. Lock in schools now, build moat through outcomes.

EU Capital Flush

ELEVATE + Digital Europe grants peak in 2026. Non-dilutive funding available NOW.

Market timing: Policy + capital + zero competition = 18-month window to become category leader.

OUR SOLUTION
